SUMMARY STATEMENT:

The Board is being asked to approve a K-8 science curriculum: McGraw Hill Inspire Science. This K-8 curriculum will be adopted for a 6 year period, and includes bundled materials, one year of professional development as well as one year of science kits for elementary and middle grades.

ISSUE:

Board Policy 6141 states "the Board shall adopt a district curriculum which to the extent possible reflects the desires of the community, the needs of society, and the requirements of law... The curriculum shall be consistent with and aligned to established state standards and the philosophy, goals and objectives of the district." Furthermore, AR 6141 states that final decisions concerning the development of educational programs are the sole responsibility of the School Board.

BACKGROUND:

Science curriculum was up for adoption in 2017 based on the KGBSD rotation cycle. Due to the State of Alaska adopting new state standards for science, the district opted to wait to review and select curriculum until the standards were updated and formally adopted. In 2019 the State of Alaska adopted new science standards (Next Generation Science Standards w/ AK Standards).

Subsequently, the K-8 Science Curriculum Committee spent the current school year reviewing multiple science curriculums that align to current AK State Standards. The McGraw Hill Inspire Science curriculum is the recommendation of the committee. The curriculum being presented tonight for approval, along with the accompanying materials, align to Alaska's newly adopted science standards.

RECOMMENDATION:

Administration recommends the approval of the McGraw Hill Inspire science curriculum.

FISCAL NOTE

EXPENDITURE REQUIRED: \$229,490.01* AMOUNT BUDGETED: \$229,490.01

**Materials plus 1 year kits for Elementary= \$168,600.09 Grades 7-8 = \$60,889.92*

ATTACHMENT:
