MEETING OF March 27, 2024

ITEM TITLE:

PUBLIC HEARING - POLICY

REVIEWED BY:

Motion to approve revisions to BP 5137
Positive School Climate , in second reading

Policy Committee

SUBMITTED BY: School Board Policy Committee

APPROVED FOR SUBMITTAL: Michael Robbins, Superintendent, 907 247 2109

SUMMARY STATEMENT:

The School Board Policy Committee is proposing approval of revisions to Board Policy 5137.

ISSUE/BACKGROUND:

Board Bylaw 9300 states that "The formulation and adoption of written Board policies shall constitute the basic method by which the Board shall govern the school district." Board Policy 0500 and Board Bylaw 9311 both address the ongoing review of district policies and programs by the School Board. The proposed revisions are in line with AASB suggested policy updates

RECOMMENDED ACTION:

"I move that the Board of Education **approve revisions to Board Policy 5137 Positive School Climate, in second reading.**"

Research indicates that student achievement is often higher in schools with a positive climate. The School Board expects that all school staff will contribute to a positive and welcoming climate in each school. This encourages staff to have positive interactions and relationships with students. A positive school climate includes safe, culturally responsive, supportive, which is reflected through safe, well-managed classrooms and school environment. common areas, clearly stated high expectations about individual responsibility, and whose Teachers and staff should consistently acknowledge all students and fairly address students' behavior.

School Climate refers to the social and environmental factors that contribute to students' experience of, and attitude towards, their school. School climate is related to how well students feel connected with others at their school and how comfortable the school setting is for them as a student and for their family. Without a positive school climate, students are unlikely to see their school as a place they feel welcomed, challenged and nurtured. The School Board recognizes that students experiencing a positive school climate are more likely to achieve success both academically and socially. The District should implement practices that support a positive school environment. These may include: appropriate expectations that are implemented in a nondiscriminatory manner, social and emotional supports, trauma informed practices, culturally responsive education and supports, community and family relationship supports, a positive peer climate, caring adult relationships, a school safety program, and opportunities for student involvement.

The Superintendent or their designee may implement and support strength-based activities such as Social Emotional Learning (SEL) efforts, youth leadership initiatives, family involvement in schools, and community service projects.

All members of the school community, including staff, students, administrators, school board members and visitors, are expected to serve as role models by demonstrating positive attitudes, cultural sensitivity, and respect to students and staff members. Staff shall use effective classroom management strategies to foster positive social interactions among students, and encourage and recognize activities that foster a positive school climate.

The Superintendent or their designee will administer the School Climate and Connectedness Survey on a regular basis, share results with the school board, staff, students and the community, and commit to improving school climate and connectedness ratings.
