CITIZEN REMARKS

Dave Timmerman spoke about drug use and drug overdoses in Ketchikan, and stated that the district's drug education needed to be re-examined.

Kristina Townsend spoke about a variety of health issues from mask wearing, in addition to citing visual and auditory effects for children. She provided a scientific article on the subject to the Board.

Riley Gass stated that mask wearing at school should be up to parents and their children; and questioned whether mitigation measures would prevent upcoming large events, such as the Clarke Cochrane basketball tournament.

Monica Thorne said masking of children needs to be reconsidered. She said that education needs to be the district's priority and not COVID protocols. Ms. Thorne also shared comments from teacher Mandy Buckingham about her concerns with wearing masks in physical education. Ms. Thorne's young daughter Mia who accompanied her to the podium said the world should be free from masks.

Sharli Arntzen expressed frustration regarding the district's COVID mandates and spoke about its effect on her children. She said her family is done compromising and pleaded with the Board to "let parents be parents."

Student Zerek Arntzen asked that students not have to wear masks in physical education.

High school students and Lady Kings softball players Hannah Moody and Paige Boehlert spoke in support of the team's requested trip to South Carolina, and why it would be beneficial.

Kalea Allen, head coach for the Kayhi softball team, spoke about the benefits of the requested spring trip and why a Florida camp was being proposed, and how the team would fund-raise. She also commented on COVID mitigation, citing the protocols followed at the Gateway Recreation Center in her position as recreational programmer.

Christy Willis declared that the district's education was failing at all levels. She provided a petition to the Board which called for masks to be optional at school. She also stated that a lot of the drug overdoses had to do with mental health issues related to COVID.

Liz Thomas asserted there was disparate treatment of students and parents, depending on their views on mitigation measures and what is safe. She said she doesn't feel it is safe for her children to be wearing masks 8 hours a day. She said the district is failing its students.

Laura Munhoven objected to masks in school with vaccines available for those who want them. She indicated vaccinated and unvaccinated students are being treated differently. She also commented on not being allowed to volunteer in her children's school.

MJ Cadle spoke about trauma-impacted children, including her daughter. She said the district needs to consider trauma-informed education to help those children.

High school student Linnaea Loretan said masks should be optional, not mandatory. She also stated that healthy people shouldn't have to quarantine; and also commented that there was a very low pediatric death rate from COVID.

Darlene Svenson demanded that Board members do the job that she said 76.6 percent of parents wanted and that was to change the rules.

Written comments were then read from five individuals who'd requested their comments be read aloud at the meeting.

Teacher and parent Gale Lindemann, urged that the district's mitigation measures not be lessened, writing that to do so would be a significant mistake.

In her written comments, Heather Muench asked that masks be kept as part of the district's COVID mitigation measures.

Colleen Smith, a district third-grade teacher, wrote about the impact of COVID on students and staff, and advocated for retaining multiple layers of mitigation to keep children and staff in school.

Ann McKim attached a signed petition to her email which asked that masks be made optional for students, and also attached an article about masks potentially being harmful to children.

Danielle McClennan wrote that teachers are paid to teach and not to be dealing with mask wearing by students. She contended that students and staff have the right to choose whether or not to wear masks.

Ms. Thomas, who'd spoken earlier that evening, came to the podium again to comment on some of the written remarks which had just been read.

Break

The Citizen Remarks portion of the agenda concluded at about 7:45 p.m. and a 10- minute break was taken in the meeting.

The Board then discussed various aspects of the plan and associated topics in its work session, including: a potential "sunset" of, or rolling back, mitigation measures; and keeping students in school when they are close contacts instead of quarantining them. There were some requests for information to be provided on filters in the district, and also on conducting a survey.

WORKSESSION CONCLUDED - REGULAR SESSION RESUMED

At approximately 9:30 p.m., the work session ended and the Board re-entered its regular session. Board President Bradford asked if there was follow up direction from the Board for administration.

Board Member Tabb suggested a special meeting to hear from public health experts, and possibly physical education teachers, and to have more review of the plan from the Start Strong committee.

After some discussion, Board members agreed to hold a special meeting on Wednesday, November 17 for those suggested purposes. It was also agreed to institute a 5-minute limit on individual public comments at that meeting, as provided for in Board policy.
