

CONCEPTS AND ROLES

Note: Pursuant to 14.11.020, borough assemblies or city councils may by resolution request responsibility from the State Department of Education for the planning, design, and construction of school facilities funded by state grant funds. A.S. 35.15.080 provides for the assumption of responsibilities for state public works projects subject to AS 35.15.010. Pursuant to 14.14.060 and 14.14.065, borough assemblies and city councils may agree to a division of duties with the School Board related to the design, maintenance, and construction of facilities. Assemblies and councils must consider the recommendations of the School Board. The following sample language should be revised or deleted to reflect district responsibilities and needs.

Since school construction is costly, and buildings become a permanent part of the community to be used by large numbers of people, the School Board and the district administration must take great care to ensure that the facilities fully support the intended educational and community programs, may be altered conveniently and inexpensively to meet future educational and community needs, provide a healthful environment, and fit harmoniously and attractively into the community.

The Borough Assembly is responsible for providing major construction, rehabilitation and repair of school buildings. The assembly may, through resolution, transfer the responsibility of school construction to the school district. The Board of Education reserves the right to accept or reject such responsibility.

(cf. 1330 - Use of School Facilities)

Role of the School Board

The School Board:

1. Recommends to the borough assembly, city council, or Department of Education what buildings shall be built, when and where.
2. Approves design criteria for school facilities.
3. Seeks adequate financing for school facilities.
4. Approves the selection of artists for art works in new facilities, if required or desired.
5. Awards contracts to responsible bidders in the best interests of the district.

CONCEPTS AND ROLES (continued)

Role of the Superintendent or designee

The Superintendent or designee:

1. Directs the planning of all educational features of new buildings or alterations of old buildings.
2. Maintains overall responsibility for the preparation of the educational specifications and capital improvement plans for school facilities.
3. Acts as authorized agent of the district in all official governmental interactions related to school facilities.
4. Recommends artists for art work in new facilities.
5. Oversees the preparation of bids, award of contracts and, in collaboration with the architect, the construction.
